

XOLO launches Q600 – The powerful smartphone powered by Quad-core processor.

XOLO Q600 is priced at Rs. 8,999

July 2, 2013: After the successful launch of XOLO Q1000, Q700 and Q800, XOLO - the premium smartphone brand, today announced the launch of Q600. XOLO Q600 is the fourth Quad-core smartphone announced by the brand under its Quad-core series. With its promise of delivering something better and extra with every product, XOLO aims to provide a faster smartphone experience to its customers at an attractive price with this launch.

Q600 packs in a powerful 1.2 GHz Quad-core processor which offers Fast User Interface (UI) responsiveness, fast application launch and smooth performance.

The XOLO Q600 runs on latest Android Jelly Bean v4.2 and comes packed with an exclusive app, XOLO Secure – an Anti-theft app to protect your beloved device. XOLO Q600 also comes preloaded with Swypekeyboard to enable users to type faster with unmatched ease of use and convenience.

It is equipped with a 4.5" TFT display which supports 5 finger touch gesture. It has a resolution of 854x480 with 217 PPI. It comes with 4 GB of internal storage and 512 MB of RAM for a smoother smartphone experience.

The XOLO Q600 sports a 5 MP rear camera to capture vivid and sharp images and a VGA front camera for 3G video calling. It comes with a powerful 2000 mAh battery which offers up to 333 hours of stand-by time and up to 13.4 hours of talk time on 2G and up to 10 hours of talk time on 3G.

The XOLO Q600 comes with a PowerVR SGX544 GPU and has an Accelerometer for a great gaming experience. This smartphone is available in a beautiful white color.
