

Two XOLO launches Q1000S - It's Slim. It's Powerful. 6.98mm thin with 13MP camera and 1.5 GHz quad-core processor Priced at Rs. 18,999.

August 23, 2013: XOLO, the premium smartphone brand, today announced the launch of its new flagship smartphone, XOLO Q1000S. Yet another powerful device that is designed to impress, the new XOLO Q1000S is a beautiful looking device and stands high on flaunt value with just 6.98 mm thickness.

This slim and sleek device runs on Android 4.2 Jelly Bean and is powered by a 1.5 GHz Quad Core processor for a super smooth performance and great smartphone experience. It comes with 1 GB RAM to let customers run various applications simultaneously and smoothly to getmost out of this device.

XOLO Q1000S sports a 13 MP rear camera with BSI 2 sensor to capture crisp and sharp pictures even in low light. BSI 2 sensor is an improved version of BSI sensor, which results in better image quality, enhanced color reproduction and improved overall camera performance. The front camera sports a 5 MP with BSI sensor for 3G video calling. The 13 MP Camera is capable of recording Full HD 1080p videos and can capture clear images even when the camera is shaking, using the image stabilization technology. Other features of camera are scene detection & tuning, high dynamic range (HDR), low light enhancement, face recognition (for focusing as well as in gallery), panorama capture and geo tagging. It can capture up to 99 shots through its burst mode feature so that you don't miss any moment.

This pencil-like thin high-end device from XOLO packs a 5 inch HD IPS screen with OGS display technology, which makes colors more vibrant and touch-screen more responsive. It has a resolution of 1280x720 with 294 PPI for bright and crisp display.

Equipped with a powerful 2500 mAh battery, the Q1000S delivers great music experience for music lovers, with music playback time up to 53 hours (via internal speakers) and up to 34.6 hours (via wired headset). It offers stand by time of up to 327 hours on 3G and up to 425 hours on 2G, talk time of up to 22.5 hours on 2G and up to 12.5 hours on 3G. It has an internal memory of 16 GB for storing ample multimedia content.

To summarize, this classy looking device is made for today's generation who wants the best of both worlds. Be it looks or performance, this device will not disappoint its customers.

The XOLO Q1000 will be available in the market at Rs. 18,999.
